Join us for a three hour guided historical Laguna Beach tour aboard the newest addition to our fleet, the 63' Ocean Adventures Catamaran.

### Once on board you will:

- Enjoy a delicious deli style luncheon served while cruising the historic Dana Point Harbor. The catamaran will then glide up the coast to Crystal Cove. Our historian/naturalist will narrate fun and interesting facts, while the captain slowly maneuvers the vessel south, in and out of various coves and historic landmarks of Laguna.
- Learn about Laguna's rich history in the film industry and learn about the stars who once called Laguna Beach their home and the celebrities who still reside there.
- See world renowned architecture of some of Laguna's finest homes and resorts along the coast.
- Have a chance to see marine wildlife such as whales, dolphin, sea lions and other species in their natural habitat.
- Sample a complimentary glass of our featured wine from Laguna Canyon Winery. These wines can be purchased from DaVine Food & Wine shop after the cruise returns.
